Patient Navigators

Patient navigators help you find the medical, behavioral and social services you need. Once you are a patient, your provider can connect you with this valuable resource.

Patient navigators can help you with:

- Eligibility for sliding fee scale*
- Medication assistance
- Referrals to legal aid
- Health Insurance Marketplace
- Referrals to many community resources

**Uninsured patients may be eligible for the ACHS sliding fee scale. Discounts on lab tests and prescriptions may also be available.*

ACHS

**ACHS has been offering Quality,
Affordable Health Care Since 1975**

Founded in 1975, Ammonoosuc Community Health Services is a nonprofit community health center offering a network of affordable primary health services. Our programs promote and support the well-being of individuals and families by emphasizing preventive care and encouraging active participation in one's own health.

ACHS serves 26 New Hampshire towns in northern Grafton and southern Coos counties. Clinical teams, made up of doctors, nurse practitioners or physician assistants supported by nurses and medical assistants, provide comprehensive services on a sliding-fee scale to over 10,000 patients.

ACHS receives HHS funding and has Federal Public Health Service (PHS) deemed status with respect to certain health or health-related claims, including medical malpractice claims, for itself and its covered individuals.
